IMPORTANT MSDS INFORMATION

Dear Customer:

Streck manufactures reagents for Hematology and Immunology analyzers. These diluent, cleaning and rinsing reagents do not contain hazardous chemicals at concentrations of 1% or greater. Furthermore, these products contain no known carcinogens at concentrations of 0.1% or greater. As a result, Material Safety Data Sheets are not required for these products [ref. 29CFR 1900.1200 (d) (5)].

Streck's products are classified as *in vitro* diagnostics and regulated by the FDA. Accordingly, all applicable precautions are stated on the package insert that accompanies each product.

Streck suggests you place a copy of this letter in any place you would ordinarily keep an MSDS. This step will document your laboratory's compliance with OSHA requirements.

Streck Safety Director
