### **Streck Is the Exclusive Distributor of RAL Immersion Oil**

Omaha, NE — Streck, Inc., a developer and manufacturer of products for the clinical laboratory, is now the exclusive U.S. distributor of the RAL Immersion Oil Dropper and Stand.

The drop dispenser is stored in a convenient stand in a ready-to-use position. Designed for use with one hand, the dropper dispenses a consistent amount of immersion oil every time and makes applying oil a clean and simple procedure.

The immersion oil itself is a high-viscosity oil with extreme clarity. The manufacturer, Reactifs RAL of France, is ISO 9001 certified and one of Europe's leading manufacturers of clinical stains.

Streck offers the RAL Immersion Oil in two configurations: a single dropper with a stand and a 10-pack refill of droppers.

Over the past 30 years, Streck has developed a reputation for excellence that includes consistent, high quality controls, responsive customer service and technical service teams. For more information, call 800-843-0912 or consult Streck online at [www.streck.com](http://www.streck.com).
